

Jazz Pharmaceuticals®

COMPANY PROFILE

Our mission is to improve patients' lives
by identifying, developing, and
commercializing meaningful products that
address unmet medical needs.

Who We Are

Where there's a will, there's a way. Patients are our will.

Jazz Pharmaceuticals plc is an international biopharmaceutical company focused on improving patients' lives by identifying, developing, and commercializing meaningful products that address unmet medical needs.

We have a diverse portfolio of products and product candidates, with a focus in the areas of sleep and hematology/oncology. We also support commercial products in other therapeutic areas where we can meaningfully address serious medical needs.

As part of our unwavering commitment to improve patients' lives, we are continuing to expand our commercial product portfolio and our research and development pipeline in therapeutic areas that can leverage our unique expertise. We do this through a growth strategy of growing sales of the existing medicines in our portfolio; acquiring commercial products or product candidates that are in late-stage development; and pursuing focused development of our pipeline of differentiated therapies.

Our Culture

We have a strong patient-focused culture at Jazz Pharmaceuticals that our employees believe in and pursue every day. It is clearly identified through our mission, vision and core values.

Each member of our team makes integral contributions and is working toward a common goal to improve patients' lives.

Everything we do at Jazz Pharmaceuticals is focused on three things:

- Putting patients first
- Being a great place to work
- Living our core values — integrity, collaboration, passion, pursuit of excellence and innovation

Products

We have a diverse portfolio of products in our therapeutic areas of focus: sleep and hematology/oncology.

We also support commercial products in therapeutic areas where we can meaningfully address serious medical needs. Our products are reaching patients in over 80 countries.

Research and Development

At Jazz Pharmaceuticals, we strive to identify and develop new, meaningful products that fill significant unmet medical needs of patients. We are actively expanding global R&D capabilities and advancing our clinical pipeline in therapeutic areas that leverage our expertise.

Our research and development program currently includes clinical development programs in the areas of sleep and hematology/oncology for new product candidates, line extensions for existing products and the generation of additional clinical data for existing products.

Our Leadership

Our leadership team has a proven track record of successfully developing and commercializing therapeutics and creating patient programs that result in better patient care.

At the same time, they've demonstrated their ability to drive shareholder value and built Jazz Pharmaceuticals into an employer of choice. The following individuals comprise Jazz Pharmaceuticals' Executive Committee. See JazzPharmaceuticals.com for biographies and a listing of the company's Board of Directors.

Our Philanthropic Responsibility

At Jazz Pharmaceuticals, we view our corporate giving as an opportunity for us to help improve patients' lives by filling unmet needs, to demonstrate our commitment to the communities we serve by building powerful collaborations, and to make an impact through meaningful investments in organizations, initiatives and causes that reflect our mission, values, and strategic focus.

Jazz is committed to supporting programs through educational grants, sponsorships and research that benefits patients and the scientific or medical community. These supported programs are healthcare-related and consistent with Jazz Pharmaceuticals' therapeutics areas of focus. We are also committed to being an exemplary corporate citizen and contributing to the well-being of the communities in which we live and work.

Funding Areas of Focus Include:

- Healthcare-related charitable support
- Philanthropic charitable support
- Independent medical education

- 2003** Jazz Pharmaceuticals founded
- 2003/2004** Management team assembled/capital raised
- 2005** Acquired Orphan Medical and its product, Xyrem®
- 2007** Launch of Luvox CR®
- 2012** Merger with Azur Pharma, which changed Jazz Pharmaceuticals in many ways, including providing new global headquarters in Dublin, Ireland, bringing in new employees and new members of our management team and expanding our product offerings by bringing Prialt® into the company
- 2012** Acquired EUSA Pharma, which extended our product offerings to include Erwinaze®/Erwinase® and helped us establish our European commercial infrastructure
- 2013** License agreement with Concert Pharmaceuticals for the rights to JZP-386
- 2014** Broke ground on manufacturing facility in Ireland
- 2014** Acquired rights to JZP-110 from Aerial BioPharma
- 2014** Acquired Gentium, which added Defitelio® (defibrotide) to our product portfolio; European commercial launch of Defitelio
- 2014** Acquired rights to defibrotide in the Americas from Sigma-Tau Pharma
- 2015** JZP-110 Phase 3 clinical program initiated
- 2016** US launch of Defitelio® (defibrotide sodium)

What's in Our Name?

The name "Jazz Pharmaceuticals" was inspired by the talented jazz musicians who come together — each a musical specialist with an individual style — to make music in concert that is greater than the sum of its parts. Each talented member of our team, working collaboratively, comes together to contribute to a common goal: improving patients' lives.

Our Global Reach

Headquartered in Dublin, Ireland, we have over 880 employees working collaboratively across multiple offices in the US and EU to reach patients in the numerous countries in which our products are available.

We have operations in the following locations:

- Dublin, Ireland**
- Oxford, England**
- Lyon, France**
- Munich, Germany**
- Palo Alto, California, USA**
- Philadelphia, Pennsylvania, USA**
- Villa Guardia, Italy**
